

# Online 'Common Induction Standards' (CIS)

## Course Benefits:

- Cost effective
- TSI fundable
- Self-paced learning
- Easy to use

## Objectives:

- To understand and to be able to fulfill the requirements of the six common induction standards

## Outcomes:

- This course provides the "underpinning knowledge" required for NVQ's and all Social Care training
- Learners will be able to provide evidence that is referenced to NVQ

**1000's of Care Workers have used this course (verifiable).**

## Universally used

This popular and engaging online course is used extensively by care homes, nursing homes, domiciliary care agencies and local authorities (*client list on our website*).

## Assessments

Each standard sets out the required background knowledge, with online activities and multiple-choice tests to check understanding.

## Evidence of Learning

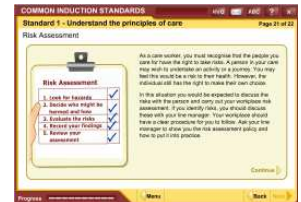

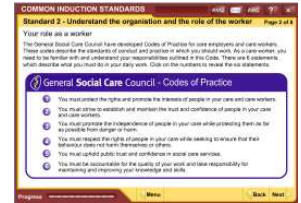

On successful completion of each standard a certificate is generated which is embedded with the learner's name. This needs to be signed off by the line manager and a copy kept on file.

On successful completion of the whole course a master certificate is generated which is also embedded with the learner's name. This provides evidence that the named individual has met the mandatory minimum requirements to work unsupervised in the adult care sector; again this needs to be signed off by the line manager and a copy kept on file.

## The hassle-free way to train your staff

Why not check it out to see why this course is so popular?

We feel confident that once you have actually viewed the course for yourself you will find that it really does provide the perfect training solution!
